Stressless®

Space
for welcoming

Stressless® Bay Low w/armrest, D300

Bringing life to every space

From reception to check-out. From galley to bridge. From the first morning coffee to the last meeting of the day.

We create interiors where people feel welcome, comfortable and at ease. With Stressless®, Svane® and Ekornes® furniture, every space can be tailored to support the people who use it – whether at sea, at work or away from home.

Designed and crafted in Norway, our furniture combines lasting comfort, durability and Scandinavian design for environments where people spend time, work, rest and connect.

A Norwegian heritage of comfort

Founded in 1934 by Jens Ellingsen Ekornes in the small fjord community of Sykkylven, Norway, Ekornes has grown from a local spring manufacturer into one of the world's leading furniture companies. What began with the production of spring systems for the Norwegian furniture industry developed into a continuous journey of innovation, craftsmanship and comfort.

The Stressless Original was launched in 1971.

In 1937, Ekorner introduced the Svane® mattress, one of Norway's first furniture brands dedicated to sleep comfort. The breakthrough came in 1971 with the launch of the Stressless® recliner, an innovation that revolutionized ergonomic seating and established Ekorner as a global comfort pioneer.

Today, while our products are sold in nearly 50 markets worldwide, our roots remain firmly planted in the furniture-making traditions of Western Norway. Most Stressless® furniture is still produced in Sykkylven, where generations of skilled craftspeople combine advanced manufacturing technology with Norwegian design values. Together with Svane®, Ekorner continues to create furniture that combines comfort, quality and durability for homes, hotels, workplaces and maritime environments around the world.

Designing for the future

Circular design

Ekornes aims to meet future demands through designing for easy disassembly, making it possible to replace components for repair, recycling, or reuse. We strive to use recyclable materials to the greatest extent possible, in order for them to re-enter the product lifecycle at a later stage.

Made to stay

The most sustainable furniture is often the furniture that remains in use. That's why we focus on durability, reparability and timeless design. We choose materials with care and design products that can adapt to changing needs over time. By making components easier to replace, repair and recycle, we help extend product life and reduce waste – while maintaining the comfort and quality Ekornes is known for.

Reducing virgin material

In addition to turning waste into valuable resources, we are exploring new technologies to reduce the use of virgin material. One example is the new Stressless® Basil Dining chair, which has a fabric knitted with 3D technology. Its superior precision eliminates waste. Another great product feature is that the fabric is washable or can be replaced completely without changing the chair.

Waste free production

An important goal in Ekornes' sustainability strategy is a waste free production. By re-introducing by-products from own products into existing or new circular models, we are able to save virgin material and make waste a valuable resource in our factories.

A photograph of a modern restaurant interior. The background features a wall made of vertical wooden slats. A large, leafy green plant hangs from the ceiling. In the foreground, there are two tables. The table on the left is round and made of wood, with a wooden chair that has a cutout back. The table on the right is round and white, with a white upholstered chair that has a black metal frame. The white table is set with a glass of white wine, a glass of water, and a plate of food including bread and vegetables. The floor is dark wood.

HOSPITALITY

Offer your
guests the best

Stressless® Bay Low w/armrest, D300

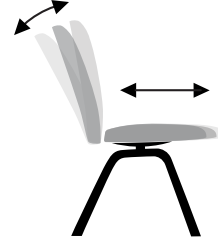

Stressless® Laurel Low w/armrest, D200

Space for staying a little longer

A good chair has a way of making people slow down. Stressless® dining chairs move with the body, adapting naturally as people shift position throughout a meal, a meeting or a conversation. The result is comfort that lasts longer — and experiences people want to stay for.

Whether used in a restaurant, conference room, guest room or waiting area, every chair is designed to support real people through real moments.

Balance&Glide

Our Stressless® dining chairs have a flexible seat and back, offering a variety of positions for increased comfort. This comfort enables you to maximize your quality time with friends and family.

Stressless® Laurel Low w/armrest, D200

Space for conversations that continue

The meal is only part of the experience.
Lighting sets the mood. The
surroundings create the atmosphere.
And the chair decides whether guests
stay for one more coffee, one more story
or one more round of discussion.
Stressless® dining chairs are designed
for those extra moments

Stressless® Laurel Low w/armrest, D400

Stressless® Chili Low, D200

Stressless® Dining chairs are a popular choice for conference rooms, meeting spaces and dining environments alike. With a wide range of bases, fabrics and leather upholstery, each chair can be tailored to fit its surroundings. A wooden base adds warmth and character, while black powder-coated steel creates a clean and contemporary look. Whatever the combination, every chair is designed to bring lasting comfort and visual harmony to the space around it.

Create your own Stressless® chair

There are more than 1,500 different possible combinations of colours, fabrics and leather in our collection. A wide range of bases and chair models means you can create precisely the chair you are looking for. Will it be a conference room chair, multipurpose chair, office chair, dining chair or waiting room chair? That is entirely up to you, your imagination and your vision. But whatever you choose, you can be certain that it will have the exceptional quality that Stressless® is known for.

Home Office

Space for switching off

After a busy day, comfort matters. Whether in a hotel lobby, guest room, crew lounge or waiting area, a Stressless® recliner creates a place to pause, recharge and settle in. Patented comfort technologies like Plus™ and BalanceAdapt™ work together with the user's movements, providing support exactly where it's needed.

Different environments demand different functions and visual expressions. That is why we offer a wide range of Stressless® recliners, whose design ranges from the classic and timeless to the modern and dynamic. You choose the base according to your taste and needs, and several models can be supplied with either a low or high back. All of them, however, provide a level of quality and comfort we believe is hard to match.

Space for people to connect

Some of the best moments happen between the planned ones.
A quick catch-up before a meeting.
A conversation after dinner.
A quiet break between shifts.

Our sofa collections help create spaces where people naturally gather, connect and spend time together – without compromising on comfort or durability.

Stressless® Stella w/armrest S1

Space for unwinding

Hotel rooms should feel effortless. A place to kick off your shoes, settle in and leave the day behind. From dining chairs and recliners to beds and sofas, Ekornes Interior Solutions helps create guest rooms where comfort feels natural and every detail supports relaxation.

Ekornes supplies everything you need – from Svane® mattresses and beds to Stressless® dining chairs, recliners and sofas. There is a wide range of designs to choose from, but all our furniture has one thing in common: proper Norwegian craftsmanship, built to last for generations and with comfort and functionality that only we provide. That is something both you and your guests will appreciate.

Good nights create better days

Did you know that Ekorner also supplies a good night's sleep? Svane® beds and mattresses hold a unique position in the history of Norwegian furniture. Established in 1937, Svane® was the first Norwegian furniture brand. Since then, innovation has been our watchword. Today, for example, Svane® supplies mattresses made with the unique material IntelliGel®. All our mattresses have the DuoSystem®, in other words a firm side and a soft side.

We have adjustable beds, divan beds and mattresses. And, of course, everything is available in the furniture fabric that can be matched to your interior décor.

The image shows the interior of a ship's lounge. In the foreground, there are two leather armchairs, one dark brown and one light tan, both with black frames and casters. A small round wooden table is next to the light tan chair, with a remote control on it. The floor is covered in a grey carpet. Large windows with wooden frames provide a view of a coastal town and a body of water. The ceiling is made of wood slats.

MARITIME

Space for
smooth sailing

Stressless® Tokyo Star Low Back.

*Space
for the view*

Comfort on board

Dining chairs from the Stressless® Dining range offer a level of comfort reminiscent of our famed recliners. That is why they have become so popular in both exclusive restaurants and more relaxed seating areas on board ship.

What could be better than leaning back in comfort while you enjoy a delicious meal and a beautiful view?

The Stressless® Dining collection consists of a wide range of models that can easily be customised to fit into any maritime environment.

Stressless® Chilli Low w/armrest, D350.

Most modern ships offer the same level of comfort on board as you would find on shore. When Havila Kystruten, one of the companies sailing the iconic Norwegian coastal route between Bergen and Kirkenes, wanted to furnish its restaurants with modern, Norwegian dining chairs, they chose high quality, locally produced furniture from the Stressless® Dining range.

Now, cruise passengers can enjoy breakfast or a gourmet meal in stylish, modern surroundings, while the beautiful Norwegian coast passes outside the window. Stressless® comfort is renowned worldwide, and your guests and employees deserve to be met with the best that Norway has to offer.

Space
for long
watches

Stressless® recliners

Long shifts deserve genuine comfort. From crew lounges to passenger areas and bridge environments, Stressless® recliners provide support that helps people recharge between responsibilities.

Stressless® recliners are among the most well-respected and well-known brands in the furniture market worldwide. They have unique functions, like the Plus™ system, which provides optimal support for the neck and lumbar region, and BalanceAdapt™, which adjusts the angle of the chair's seat and back to your movements.

Stressless® sofas

Shared spaces play an important role on board. They provide opportunities to relax, connect and feel at home — even when far from shore.

For a long period of time we've been a complete supplier of furniture to both public and private sector clients, we know what it takes for your next seating arrangement to fulfil this function. Not only does the design need to be inviting, it needs to be superbly comfortable to sit in.

Stressless® sofas come in a wide range of designs, colours and covers, which makes them the perfect for use on board ships.

Some choose to furnish the crew cinema with the ultimate in sitting comfort from Stressless® Home Cinema.

Space for unwinding

In their cabins, guests or crew members should be able to kick back and experience undisturbed peace. And cabins need not be any less attractively furnished than what you would find on shore. Ekornes supplies everything you need, from Svane® mattresses and beds to Stressless® dining chairs, recliners and sofas. There is a wide range of designs to choose from, but all our furniture has one thing in common: proper Norwegian craftsmanship, built to cope with rough use when needed. Our furniture lasts for a long time, with a comfort and functionality that only we provide.

Ekornes® FR Mattress

The ultimate safe sleep solution

The Ekornes® FR mattress is the ultimate solution for safe and comfortable sleep at sea. Designed to meet the stringent flame retardancy and low emissions in fire standards set by the International Maritime Organization (IMO).

And not only does it feel every bit as comfortable as a top-tier mattress on land, it is also flexible in the way it can adapt to several users in an environment with frequent crew turnover.

Stressless® Firesafe collection

– Crib 5 and 7 certified

Ekornes now proudly announces the global launch of Stressless® Firesafe: the world's first Stressless® collection tested and approved for Crib 5 and 7. All tests in this project have been conducted in cooperation with the Norwegian Defence Materiel Agency, to meet the requirements for naval ships.

Developed to meet strict naval safety requirements

Ekornes is committed to meeting the growing demand for fire-resistant furniture, both now and in the future. Fires aboard ships or vital maritime installations have the potential to escalate quickly into critical situations. For this reason, industrial regulators in several NATO countries mandate the use of fireproof furniture in several sectors. Examples include the petrochemical and oil & gas industries, as well as naval vessels.

The Stressless® Firesafe collection has proven to withstand the severe heat generated by onboard fires. The collection has been specifically developed to eliminate the emission of toxic substances, thereby ensuring extended operational capabilities during emergencies or combat.

Test results show that in combination with a high-quality fire-resistant cover, the selected materials in the Stressless® Firesafe collection pass the Crib 5 flame test. When combined with textile Clover, the collection also passes the more stringent Crib 7 test.

WORKPLACE & PUBLIC SPACES

Meeting space

The first impression visitors get comes from the reception area or lobby. It should inspire confidence, radiate quality and provide an opportunity to relax.

Sofas and recliners from Stressless® have an enduring quality that creates a sense of wellbeing. At the same time, they come in a wide range of designs that fulfil different functions.

Stressless® Laurel Low, D300.

Stressless® Mint Low w/armrest, D200

Space for meetings that matter

When important decisions are to be made, or lengthy processes must be undertaken, it is worth investing in furniture that can stand up to prolonged use. Chairs with moveable seats and backs provide the pinnacle of sitting comfort and reduce meeting fatigue.

Chairs from the Stressless® Dining collection have the functions you are looking for, in addition to a wealth of choice in designs and colours. It is no coincidence that you will find them everywhere, from large conference rooms to small waiting rooms worldwide.

Stressless® Berlin Home Office Low Back

A base with casters and a full 360-degree swivel function provides freedom of movement and helps promote a creative meeting place.

Social space

A space with a sofa sends a clear message: this is a place for people to get together. For a long period of time we've been a complete supplier of furniture to both public and private sector clients, we know what it takes for your next seating arrangement to fulfil this function. Not only does the design need to be inviting, it needs to be superbly comfortable to sit in.

Our sofas come in a wide range of designs, colours and covers, which makes them the perfect addition in any environment, whether it is a staff break room or public waiting area.

See our sofas at
ekornesinterior.com

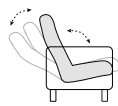

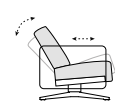

From informal meetings to everyday conversations, sofas help create spaces where people feel comfortable, connected and welcome. With a wide selection of designs, colours and durable materials, Ekornes sofas can be tailored to suit any environment. Many models can also be paired with matching Stressless® recliners, making it easy to create cohesive interiors that balance comfort, flexibility and style.

The Innovators of Comfort™

With the best quality materials, environmentally friendly processes and an uncompromising focus on comfort, our machines and people work together to create furniture that will live with you through a lifetime. When you sit down and appreciate how genuine Stressless® furniture feels, you will know.

Whether you sit up or lie down, the **Plus™-system** provides optimal comfort and support for your head and lumbar region. The sleep function is controlled with a simple hand movement to make your comfortable moments even better.

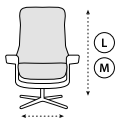

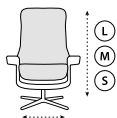

With **BalanceAdapt™**, subtle rocking motions enhance the feeling of total balance. These movements usually make all the difference between a good seat and a fantastic one.

With a light pressure under the armrest, **Power™** adjusts both the footrest and the back angle. This combination provides superb support and comfort.

Power is easily operated by the remote control, the motorized functions offer truly outstanding comfort in all positions, small adjustments can make a big difference. Take comfort to the next level with optional extras including built-in heating and massage functions.

Optimal comfort is also about correct size. Most of our Classic recliners therefore come in small, medium and large, for you to find your perfect fit.

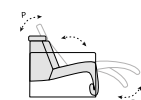

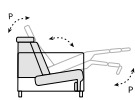

Optimal comfort is also about unique design options. Our Urban models come in 3 different back options, - Low, Adjustable and High back.

When you sit down in a fixed back sofa with **ComfortZones™** the back part of the cushion will give in more than the front part of the cushion. As a result of this, the seat cushion will angle slightly, giving you a comfortable position of your legs while seated.

Balance&Glide. Our dining chairs have a flexible seat and back, offering a variety of positions for increased comfort. This comfort enables you to maximize your quality time with friends and family.

Power. With a light pressure on the right side of the seat cushion, Power adjusts both the headrest, footrest and the back angle. This combination provides superb support and comfort.

Warranty

WARRANTY / COMPLAINTS

- Warranty for manufacturing defects for five (5) years between supplier and retailer. Signs/ traces of faulty products should be documented already at delivery.
- Approved claims covers repair or replacement of the goods, delivered to and according to the ship to address and terms in the original order confirmation.
- Afterbookings and changes can only be guaranteed as long as the model is in production
- Warranty requirements apply only to the item co13m4 plaint/error applies and not for the overall delivery. This requirement implies/ includes repair of damage, and this usually happens through retailers and only applies until proven purchase contract/receipt.

The warranty does not cover:

- Visible signs of normal and natural wear
- Wear caused by hard and misuse
- Unnatural and out-inflicted injuries
- Improper handling (delivery and installation) of non-authorized persons

- Improper handling of heat, moisture, water and care agent
- Damage caused by sharp objects (e.g. knife by extracting the item)
- Environmental impacts such as extreme dryness (cracks in solid wood, humidity, light, temperature)
- Willful destruction, improper use, overloading and damage caused "accident"

- Damage caused by foreign products, such as steaming, impregnation and care products that is not recommended by the manufacturer, discoloration of other non-colorfast fabrics, stickers on casual wear and sticky sugar, acid, the soaking, bleaching, or solvent- containing substances, alcohol residue, different types of adhesives is exempt from responsibility and guarantee services

Certification

ISO Certification

Our Stressless® production is certified in accordance with **ISO 9001: 2015** for quality management and **ISO 14001: 2015** for environmental management.

All our products are tested in accordance with the requirements given in Norwegian "Møbelfakta".

Møbelfakta

Møbelfakta is a certification that shows a piece of furniture meets requirements for quality, environmental responsibility, and responsible supply chains, all the way from material selection to manufacturing.

- Tested for safety and long-term durability
- Free from hazardous substances
- Manufactured under fair working conditions

DNV and Wheelmark Certification

Marine equipment can only be installed on board ships flying the flag of an EU country, Norway, Iceland and other flag states if it is marked with the MED mark of conformity, also known as the "wheelmark".

Proven to comply with stringent fire regulations and standards

In an industry where fire safety is of utmost importance, the **Crib 5** and **Crib 7** tests serve as essential benchmarks in assessing the flammability of materials. Additionally, the EN 45545-2 (R21) standard ensures that our products hold the highest level of safety possible in the event of a fire.
