Leather & Fabric
Collection

Available leather & fabric qualities

As a leading premium furniture manufacturer, we take responsibility seriously. Our leather complies with animal welfare, health, safety, and environmental standards. All upholstery fabrics meet or exceed mobelfakta.no Hard Wear requirements, passing international tests for durability, light fastness, pilling resistance, fire safety, and colour fastness.

Leather

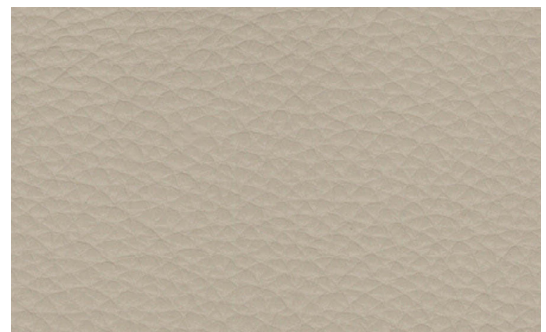

Paloma leather

PALOMA is a through-dyed semi-aniline leather with a single colour surface which has a thin coat of lacquer for extra protection and comfort. Paloma has a soft feel and rich, warm glow. It absorbs moisture and breathes. Paloma is the preferred choice of people looking for the soft, authentic leather look.

Important information if you are buying Paloma leather furniture: Colour nuances will occur, as the dyeing process is affected by natural irregularities in the leather. Colour change will occur with time, as a result of use and the effect of light. Remember that furniture should be protected from direct sunlight. Marks left by scars and insect bites are a natural feature of leather furniture.

VELARO is a thick, full-bodied leather with an elegant grain and natural look. It is dyed through, with a natural surface that is only slightly corrected and coated. A light embossing mitigates the grain variations on the leather's surface. However, all natural leathers have some grain structure variations, natural marks, and color nuances, which should be expected also on Velaro. Although robust, this leather remains soft and sumptuous to the touch. A thin topcoat protection provides Velaro with some resistance to staining and simplifies cleaning, but Velaro does not have the same heavy-duty quality and durability as Batick.

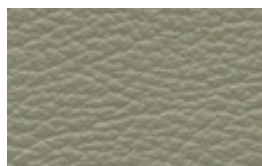

BATICK is a corrected, pigment-improved and grain-embossed upholstery leather, which has had most of its natural marks removed. Batick may have a two-tone colour effect to liven up the surface. Batick is resistant to fading, although changes in colour will occur over time with use and exposure to light. A protective layer of lacquer simplifies cleaning. Simple cleaning, excellent utilisation properties and a favourable price make Batick a good choice.

Fabric

ABELIA is a luxurious wool blend, woven with many different yarn types to offer a finish with depth and structure.

Composition: 96% wool, 4% polyamid.

Durability (Martindale): 60,000.

Light fastness: 5.

ASTER is a sustainable fabric, made entirely from recycled materials. The woven structure creates a lively surface which feels gentle and soft to the skin.

Composition: 100% polyester – recycled.

Durability (Martindale): 60,000.

Light fastness: 5.

BLOOM is a contemporary woven fabric with a distinctive appearance, achieved by blending a variety of coloured yarns and weaving techniques. The textured surface and interplay of colours are reminiscent of rock and forest floors, adding a touch of nature to your home.

Composition: 100% polyester – 63% recycled.

Durability (Martindale): 78,000.

Light fastness: 5.

CALIDO is a wool fabric with an exclusive look and feels comfortable and soft next to your skin. The fabric is available in a diverse and exclusive colour palette. Wool is a natural fibre that breathes, making it feel warm when it is cold and cool when it is hot.

Composition: 80% wool, 20% polyamide.

Durability (Martindale): 80,000.

Light fastness: 5.

CLOVER Wool is a natural fibre that breathes, making it feel warm when it is cold and cool when it is hot. The fabric feels soft and cosy, perfect for creating a classic, warm and inviting interior.

Composition: 70% wool, 30% viscose.

Durability (Martindale): 62,000.

Light fastness: 4–5.

DINAMICA is a well-known micro fibre-quality fabric, with an appearance that resembles suede leather. It is soft and very comfortable, breathable and non-static. Easy to keep clean and highly wear resistant.

Composition: 90% polyester, 10% polyurethane, 73% recycled polyester

Durability (Martindale): 100,000.

Light fastness: 5.

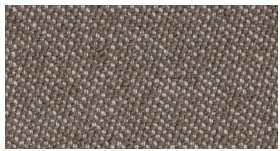

Holly fabric

HOLLY Inspired by nature, Holly is a strong, durable, heavyweight fabric made with a high share of natural, recycled materials. Composition: 45% wool, 30% cotton, 10% polyamide, 10% polyester, 5% polyacryl – recycled fibres in wool and cotton. Durability (Martindale): 100,000. Light fastness: 5.

PEONY is a classic wool fabric available in soft neutral colours. The small herringbone pattern provides a classic yet modern look, creating a warm atmosphere of quality and timeless design. Composition: 70% wool, 30% viscose. Durability (Martindale): 80,000. Light fastness: 5–7.

LOTUS is a soft modern and comfortable fabric made from recycled PET bottles, woven in Europe. The fibre has a soft surface with a light bouclé appearance. Composition: 92% polyester, 8% cotton – recycled polyester and cotton. Durability (Martindale): 100,000. Light fastness: 5.

TULIP is a sustainable choice, made with 60% recycled materials. The calm colour palette has a woven mélange effect that creates an interesting play and makes it easy to mix with other colours in a room setting. This fabric is washable and easy to keep clean. Composition: 100% polyester – 60% recycled. Durability (Martindale): 100,000. Light fastness: 4–5.

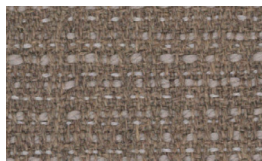

MAGNOLIA is a velvet fabric with a light slub effect. It has a soft and silky texture with a nice shine. This creates an interesting play in the natural earth tones of the colour palette. Magnolia is a classic, durable fabric quality that is easy to clean. Composition: 100% polyester. Durability (Martindale): 88,000. Light fastness: 5.

Stressless® Leather and Fabric Care kits

We offer our own leather and fabric (including microfibre) care kits to match the high quality of our furniture.

The Stressless® Leather Care kit (medium/large) contains a leather cleaner and protection cream. Stressless® Leather Care Wipes are also available. For maintenance, and to make the leather more resistant to stains, the protective cream should be applied to all your recliner's leather surfaces when new. We recommend that you clean the leather with Stressless® leather cleaner at least once every six months to keep your leather looking its best, removing stains regularly and ensuring long leather life. Always apply the protective cream after cleaning.

The Stressless® Fabric Care kit contains a fabric cleaner, a stain remover and an Ox cleaner. This kit contains everything you need to clean your furniture in minutes without removing the fabric cover. For resistant stains, use the fabric cleaner together with the stain remover and Ox cleaner.

These are the only cleaning products recommended by Stressless®. We accept no responsibility if cleaning products other than those recommended by Stressless® are used and cause damage to the leather.

*Fabric care: Vacuum regularly and wipe the surface with a damp cloth as needed. Remove spills immediately.
Leather care: Maintain surface appearance and texture by gently wiping your leather once a week with a clean dry cloth or vacuum with a soft brush.*

STRESSLESS® FABRICS, LEATHERS & WOOD CERTIFICATIONS

OEKO-TEX® certifies that textiles are free from harmful chemicals. Every component has been tested to ensure it's safe for your health and skin, including for babies and sensitive skin.

The EU Ecolabel certifies that textile products meet high environmental standards throughout their lifecycle—from production to disposal. It ensures reduced water and air pollution, limited use of hazardous substances, and better durability, while also being safe for your health.

We are a member of The Leather Working Group (LWG). It is a certification that promotes environmental best practices in the leather industry. It ensures leather is produced with reduced environmental impact through responsible water and energy use, proper waste management, and traceability throughout the supply chain.

FSC™ (Forest Stewardship Council™) certification ensures that wood and paper products come from responsibly managed forests that protect biodiversity, support local communities, and promote sustainable forestry practices for future generations.
